WHY PARTNER WITH US?

Noble Vending is owned and operated by Thrive Services Group. Thrive's mission is to generate profits that will fund social services programs for underserved Arizona communities, including workforce development, adult education, innovative K-8 schools, and housing for the homeless.

WHO BENEFITS FROM OUR PROCEEDS?

Spark Community Schools is a K-12 microschool that delivers small-class-size rigorous curriculum to students in at-risk communities. Access to a quality education can change the world for students and families who do not have other choices.

The Goodwill Excel Center is a tuition-free high school for adults 18+ who are ready to earn their diploma, secure workforce credentials, and find a job that pays a family-sustaining wage. The Excel Center students get free on-site childcare, a life coach, a job coach, and career development services while they charter a new life for themselves.

Hope & Home Family Shelter Program delivers customized, wrap-around care to homeless families from our first encounter with them on the streets, to handing them keys to their own apartment. Parents and their children have dedicated care providers who make sure the family gets stable, finds a good job, and secures a new place to call home.
